Offers
Internship Opportunity in Stock Market Analysis
at
NSE Lab, Galgotias University

At Galgotias University the School of Business and School of Finance and Commerce are pleased to announce an Internship opportunity for the students aspiring to be investors. The internship will cover the Basics of Stock Market trading with hands-on investment experience in the NSE Simulation Lab.

Internship Overview

Internship in Stock Market is a perfectly designed training program on the basics of the stock market to create a powerful knowledge bank on various tools and techniques required to understand the functioning of capital markets. It gives a basic insight into financial jargon like Equities, IPOs, Derivatives, Technical Analysis of the stock market, Macroeconomics, and Financial Planning. It is a perfect blend of Fundamental Analysis of stocks, which shall help the investor to pick the right company and Technical Analysis which will provide the correct entry and exit timing and prices through the study of trends & charts.

The objective of the course is to equip the participant with the necessary stock market theoretical and practical know-how so that students can apply the same in trading in equity markets for wealth creation. It will focus on the process of finding and analysing companies, determining the risk of a stock investment or trade, proper entry and exit time of the stock, understanding why markets move the way they do and helping you choose the right trading style for their personal goals using the correct approach to financial planning. If you're new to the stock market and want to know the basics, this is the hands-on tutorial for you!
