# IBM SkillsBuild Power your future in tech with job skills, courses, and credentials-for free.

**Dear Students,**

We continuously work to provide opportunities to skilling that would supplement your abilities to know the relevant technologies for problem solving and innovation. I strongly believe these skills are required for all the students' irrespective of your discipline of study. Further these snippets take a little time to learn and expertise at your convenience (self-paced learning).

IBM SkillsBuild Portal-Certification Course-AI-Cyber Security-Data Analytics-Cloud Computing- Fundamentals is one such certification program by IBM which takes 6-10 hours of your time to master.

The global giant IBM has launched this Free-of-cost prestigious program "Skills Build" to encourage students to equip themselves with emerging technologies.

I would suggest that all of your, irrespective of your discipline should take up this opportunity and complete the at least one certification as per your interest on or before 25-12-2023.

According to your interest you can choose any one certification course or you can do all the certifications one by one based on your choice on Self learning mode.

The Course Duration is 6hrs to 10hrs, the minimum time is just 2-3 hours. A minimum of 6 courses must be completed to get one certification. If you spent 6 hours' time then your name will be added in the IBM Skills Build portal. It will be used for internship and Placement opportunity as well.

**The Last date of completion of Certification: 25-12-2023.**
